CROSSED THE YALU

Part of the Japanese Fighting Line is Established in a Strong Position.

RUSSIANS OCCUPY BORDER TOWNS

Japs Have No Confirmation of a Reported Engagement Between Russians and Japanese at Kwisung.

A Colonel of the Russian General Staff Says That a General Mobilization is in Course of Preparation.

Chicago, April 8.—A special cable to the Daily News from Tokio says: Reliable reports were received here Thursday from Seoul to the effect that part of the Japanese fighting line had crossed the Yalu and established itself in strong positions there at several important points.

Seoul, April 8.—Telegrams have been received saying that the Russians are occupying six large border towns on the Tumen river in North-eastern Korea.

A Korean prefect has sent in a report that the Russians and Chinese who were at Yongampho, Korea, have withdrawn to Antung, across the Yalu river. Only a few merchants remain at Yongampho.

The Japanese authorities have no confirmation of a reported engagement between Russians and Japanese at Kwisung.

Paris, April 8.—A St. Petersburg correspondent of the Petit Parisian cables: A colonel of the general staff has informed me that a general mobilization is in course of preparation. In view of complications which may ensue, the police have been instructed to prepare lists of all university graduates under 40 years old capable of serving as reserve officers. A portion of the reserves will be told off to guard the trans-Siberian railroad. The decree, ordering the mobilization, will be published shortly.

"The arming of the Port of Libau has been completed and foreign vessels have been forbidden to enter the port without authorization."

Paris, April 8.—A correspondent at St. Petersburg of the Echo de Paris says a mobilization of the reserve seamen in the Sebastopol district has been ordered, half of them to be used to reinforce the Russian crews at Port Arthur and Vladivostok, and the remainder to increase the strength of the Black sea fleet.

COLOMBIA EMBARRASSED.

Has Not Yet Filed An Appeal Against the French Court's Decision.

Paris, April 8.—The republic of Colombia has not yet filed its appeal against the French court's decision in favor of the sale of the concession of the Panama Canal Co. to the United States and it is understood that one of the chief causes of the delay is the requirement of the French law that all the costs of the recent suit shall be paid before an appeal is receivable. These costs amount to a large sum, which include the court fees and all the legal expenses of the lawyers and the fees incurred by the Panama Canal Co. since the beginning of the litigation. It is said in a well-informed quarter that the Colombian authorities are somewhat embarrassed over the payments of the costs, which have the effect of postponing an early determination to appeal.

Indians in a Railway Wreck.

Maywood, Ill., April 8.—A special containing 63 Indians en route to Washington to see President Roosevelt was smashed into by a mail train two miles west of here Thursday during a fog. Three of the Indians were instantly killed, three were fatally injured and 20 others were more or less seriously hurt.

Not a Breach of Neutrality.

Berlin, April 8.—Mr. Inouye, Japanese minister, does not share the view that the sale of the steamship Fuerst Bismarck is a breach of neutrality. "From one view point," said the minister, "we are glad to see the Russians buy good ships. The Russians buy them and we capture them."

A Bomb Exploded.

Madrid, April 8.—An official telegram from Barcelona states that as King Alfonso was leaving the exhibition a "petard" exploded, injuring two peasants. One arrest was made. King Alfonso arrived at Barcelona Wednesday for a fortnight's visit to Catalonia.

ON ROLLERS.

A Church Will Be Moved to Accommodate the Congregation.

Rockport, Ky., April 8.—The Methodist Episcopal church in Yelvington will be placed on rollers and hauled to the town of Powers, 10 miles distant. The change is to be made because the majority of the congregation live in the vicinity of the latter place and have requested that the church be located there. The work of moving the building will begin at once, and it is estimated that it will cost \$1,000 to complete the job. As the building is a large and handsome structure its moving will be attended with some difficulties, but it is expected that these will be happily overcome.

REMARKABLE CASE.

Son of a Judge Says He Is Unable to Resist Temptation

Greenup, Ky., April 8.—A remarkable case of juvenile criminality was before the circuit court here Thursday. Heath Temple, only 14 years old, the son of Judge and Mrs. O. G. Temple, of Russell, was indicted for burglary.

All efforts on the part of the parents to stop his wild career have proved futile. The boy says that he can not resist the impulse to do wrong.

His father, a stern jurist, has hopes of reform by allowing the law to take its course, notwithstanding the sufferings thus inflicted on himself and Mrs. Temple.

Child Swallowed a Nail.

Newport, Ky., April 8.—The three-year-old daughter of Mr. and Mrs. August Schweld, of Tenth street, swallowed a nail about an inch and a half long Tuesday and it lodged crossways in the bowels. The nail was removed by physicians after a delicate operation. The child will recover.

War Declared By Distillers.

Louisville, Ky., April 8.—The straight whisky distillers of Kentucky have declared war on the rectifiers and blenders. Should the latter attempt to invalidate the law taxing rectified whisky the former will attempt to have a law passed making rectifying illegal in Kentucky.

Henry Temple Acquitted.

Paducah, Ky., April 8.—Henry Temple, a prominent miller, of Maxon's, this county, was acquitted of murder in the circuit court. He stabbed Robert Stealman, his engineer. The dead man's widow has sued him for \$10,000 damages.

Shot and Wounded His Wife.

Mt. Sterling, Ky., April 8.—Clarence Snedaker, it is alleged, engaged in a quarrel with his wife at Owingsville and shot her twice. One bullet entered the side and another the thigh. She is in a serious condition. Snedaker escaped.

Three Men Injured in a Wreck.

Middlesboro, Ky., April 8.—A trainload of coal on the Stony Fork railroad jumped the track on a steep grade and, plunging down the mountainside, buried three trainmen beneath the debris. One was killed; the others will recover.

A CENSUS REPORT

Present Population of the United States Exclusive of Alaska and Our Possessions 79,900,389.

INCREASE OVER 1900, 3,905,814

Estimate by the Bureau is Based Upon What is Known as the Arithmetical Method.

Country as a Whole and Most of the States Are Growing With a Steadily Decreasing Percentage of Increase.

Washington, April 8.—The census bureau Thursday, basing its figures on the census of 1900, estimates the present population of the United States, exclusive of Alaska and in the insular possessions, as 79,900,389, an increase of 3,905,814 over 1900.

The bureau of the census has decided to make annual estimates of population based upon what is known as the arithmetical method. This rests upon the assumption that the annual increase for each year since the last census will be one-tenth of the decennial increase between the last two censuses. The country as a whole and most of the states and cities are growing with a steadily decreasing per cent. of increase. As this condition has obtained in the United States for the last 20 years, it is likely to hold good in the immediate future. Under such conditions the arithmetical method has been proved more accurate than any alternative method. Estimates by this method based on the census population of 1880 and 1890 were made for the 78 cities, each of which had over 50,000 inhabitants in 1900 and the results compared with the census count.

The estimates give these cities a total annual increase between 1890 and 1900 of 407,028. The count showed an actual average increase in 414,793, or closer than estimated based on votes cast or number of names in a directory or a local census of school children. Of course, in a number of individual cases the estimates which have been made will ultimately be proved to be wide of the truth, but even in such cases the bureau of the census believes that they will be of value for the only purpose for which they have actually been prepared; namely, to establish a basis for the computation of death and birth rates, etc. After correspondence with all the cities reported, very careful computations have been made of changes in municipal areas, and yet in many cases the population of cities may not be estimated to be as large as local conditions really warrant. These estimates have the advantage of being prepared in a conservative and unbiased way.

Referring to the inclusion of suburbs in cities, the bulletin says that of the 438 cities with 10,000 or more population, 162 annexed territory between June 1, 1890, and June 1, 1903. There are no cities credited with 25,000 population in Mississippi, Oklahoma, South Dakota, Wyoming, Vermont and North Carolina. The following are the estimates of the population in 1903 of all cities given 25,000 and upward in the following states:

Illinois—Aurora, 25,485; Chicago, 1,873,880; East St. Louis, 34,007; Joliet, 30,769; Peoria, 52,094; Quincy, 37,680; Rockford, 33,361; Springfield, 36,211.

Indiana—Evansville, 61,482; Fort Wayne, 48,031; Indianapolis, 191,033; South Bend, 40,327; Terre Haute, 38,611.

Iowa—Cedar Rapids, 27,948; Council Bluffs, 29,171; Davenport, 37,768; Des Moines, 65,754; Dubuque, 38,094; Sioux City, 31,701.

Kentucky—Covington, 44,759; Lexington, 27,809; Louisville, 215,402; Newport, 29,315.

Ohio—Akron, 47,833; Canton, 32,011; Cincinnati, 332,934; Cleveland, 414,950; Columbus, 135,487; Dayton, 92,566; Hamilton, 25,819; Lima, 65,445; Springfield, 40,161; Toledo, 141,001; Youngstown, 48,386.

Pennsylvania—Allegheny, 138,018; Allentown, 38,573; Altoona, 41,565; Chester, 35,995; Easton, 26,775; Erie, 56,364; Harrisburg, 52,951; Johnstown, 39,059; Lancaster, 44,294; McKeesport, 33,274; New Castle, 32,593; Philadelphia, 1,367,716; Pittsburg, 345,043; Reading, 85,051; Scranton, 107,026; Wilkesbarre, 55,921; Williamsport, 29,245; York, 36,438.

According to these estimates New York city has 3,716,139 inhabitants. St. Louis has just passed and Boston has almost reached the 600,000 mark. Baltimore has 531,313 inhabitants.

LABOR MINISTERS.

Effort to Establish Close Relations Between Church and Labor Unions.

Chicago, April 8.—Repulsed by speakers at the last meeting of the Chicago Federation of Labor Ministers who have been trying to establish close relations between the church and labor organizations, have issued a call for a mass meeting of members of the clergy and of trades unionists to be held here next Sunday to discuss the proposition of seating clergymen as fraternal delegates to the federation. One local union receiving the call for the mass meeting has adopted resolutions rejecting the plan and suggesting if the ministers are not being paid enough wages that they form a union and make application for membership in the regular way.

A STRIKE AVERTED.

The Kentucky Miners and Operators Will Resort to Arbitration.

Louisville, Ky., April 8.—A strike of over 4,000 coal miners at work in Kentucky which seemed inevitable was averted Thursday when, after three disagreements, the wage committees representing operators and miners agreed to submit their differences to arbitration and abide by the result. The miners gained a slight advantage in having the question of hours eliminated from the proposals to be arbitrated, the day standing at 8 hours. The miners demand the full Indianapolis scale, while the operators insisted on an average reduction of four and one-half per cent. The arbitration committee began its work Friday.

STRANGE INJUNCTION.

Workman Prevented From Working at His Trade of Netmaker.

Chicago, April 8.—An injunction preventing Joseph A. Cone, of Boston, from working at his trade was issued Thursday by Judge Lockwood Honore. Cone is a maker of nets. The bill declares that he resigned from the employment of a Massachusetts company a year ago, after signing a contract not to engage with any other company in the same business for five years. He is charged with breaking this agreement by working for a Chicago company.

A DOUBLE TRAGEDY.

Killed Girl With Whom He Was About to Elope and Her Father.

Water Valley, Miss., April 8.—A tragedy occurred two or three miles north of town Thursday. Ed Gammon, a young farmer, had made all arrangements to elope with Miss Fannie Kimsey, when her father, Jake Kimsey, appeared on the scene. Gammon shot and killed him. The daughter endeavored to escape from the scene, but Gammon shot and killed her and then made his escape. A large posse is in hot pursuit.

ALMOST A TORNADO.

Terrific Winds Did Much Damage at Natchez, Miss.

Natchez, Miss., April 8.—Natchez was visited Thursday night by a severe wind storm which almost amounted to a tornado. The wind was accompanied by a terrific rain and hail storm. Part of the city hall was unroofed. Several warehouses and a number of residences were shorn of their roofs. Fences were blown down and huge trees were torn up by the roots and carried into the street by the fierce wind.

JURYMEN STRUCK.

Refused to Return a Verdict Until They Had Received Their Fees.

Belleville, Ill., April 8.—A jury in the trial of a slander case Thursday reported to the court, "We have reached a verdict, but we refuse to return it until we have received our fees."

"Constable, take the jury to jail and keep them there until they give up their verdict," ordered Justice Wangelin. When the constable started to carry out the order the jurymen weakened and returned a verdict of "guilty" against the defendant.

Cotton Mills Shutting Down.

COAL RAILROADS.

Resolution Calling Certain Evidence Showing a Conspiracy in Restraint of Interstate Trade.

PRICE OF COAL WAS INCREASED.

This Aggregates a Tax of \$50,000,000 a Year on the Consumers of the Fuel, It is Said.

The House Adopted a Resolution Making the Swayne Impeachment Proceedings a Special Order For December 13 Next.

Washington, April 8.—Representative Hearst, of New York, Thursday introduced a resolution calling upon the attorney general to furnish congress certain evidence offered by a "citizen of New York in October, 1902, showing a conspiracy in restraint of interstate trade among the anthracite coal railroads."

The report of the United States attorney for the southern district of New York on the evidence is to be included. If this information is not received in seven days the resolution provides that a committee of seven members of the house shall proceed to compile the evidence requested. The preamble of the resolution recites that the monopoly complained of has resulted in increasing the price of coal 40 per cent. and that this aggregates a tax of \$50,000,000 a year on the consumers of coal.

Washington, April 8.—Senate—The senate Thursday listened to eulogies of the late Senator Hanna. The galleries were well filled and the speakers were given close attention. Those who spoke were: Messrs. Foraker, Scott, Cockrell, Platt (Ct.), Cullom, Blackburn, Elkins, Fairbanks, Daniel, Perkins, Depew, Beveridge, Dooliver, Kearns and Dick.

House—The Swayne impeachment proceeding which has been looked upon as the only possible block to an early adjournment of congress was disposed of in five minutes by the house Thursday by the adoption of a resolution making the case a special order for December 13 next. In the meantime the judiciary committee is to take additional testimony in the case. In disposing of a conference report on the army appropriation bill the house took up the bill extending the coastwise laws to the Philippines and by a vote of 122 to 100 adopted a special rule to vote on this bill after a debate of two hours. This debate was exhausted save five minutes when the house adjourned. An amendment to the bill postponing the operations laws until July 1, 1906, instead of 1905, will be proposed.

E. C. Talmadge and John N. Lucas were taken into custody, the former on a charge of obtaining money by means of a confidence game and the latter for conspiracy with intent to defraud. A charge of the same kind was also lodged against Talmadge, whose name appeared on the door as agent of the Pacific Underwriting and Trust Co., and western agent of the Imperial Trust Co., of New Jersey. The police declare the Talmadge-Lucas offices are the "clearing house" of numerous operations from New Jersey to Dakota.

Mr. BRYAN has written an article for the Commoner in which he classes Parker, Cleveland, Hill, Olney and Gorman as unavailable candidates for the Democratic nomination for the Presidency. He is opposed to Parker because Hill is for him. Well who is Bryan for, anyhow?

REPRESENTATIVE GEORGE J. GILBERT has introduced a bill in the House to place farming and agricultural implements on the free list. That's about as far as any measure of the kind will ever get in a Republican Congress. The International Harvester Company has absolute control of the manufacture of farming and other agricultural implements, and this big trust will not be hurt in any way by the Republicans.

JUDGE PARKER.

The announcement of Cleveland that he is for Judge Parker for President is not calculated to help the New York jurist in any certain sections of the country where the Bryan sentiment has been strong. Still there is no question that Parker stock is booming just now, and the announcement of Senator Gorman in favor of the New Yorker will help solidify the East for him. It looks now decidedly like Judge Parker will be the Democratic nominee. In view of his prominence in the contest, the following pen picture of him by James Creelman of the New York World will prove of interest:

Judge Parker is six feet tall and a man of giant strength. His shoulders are broad and his chest deep. His muscles, developed by hard work on the farm and by daily horseback riding, are the muscles of an athlete. He slopes perfectly as a man should, from his shoulders to his feet, and in spite of his nearly fifty-two years, and his weight of 196 pounds his step is as light as a boy's and he can vault into the saddle with ease. His face is that of a country-bred man, strong and full of color. The eyes are large and of an agreeable brown; lion-like eyes, but for the kindly expression. One notices the eyes first, and then the immense jaws and formidable round chin. The lower part of the face is heavy, but not brutal. It has a powerful line and outward thrust that suggests tremendous will power. The mouth is large and masculine, with a thin, lower lip. The upper teeth are big, flat and white. The lower teeth are smaller. The coarse, tawny mustache goes well with the brilliant brown eyes, and the reddish-brown hair. The Judge's nose is aquiline. He has high cheek bones, but the characteristic is not marked. His high, broad forehead slopes back without a bump. It is a singularly symmetrical brow, showing penetration, observation, ambition and energy. The black head is not large and is somewhat straight, so that it does not balance with the great jaws and fighting chin. Nowhere in the face or head is there a suggestion of craft. Nor is there anything sideways or sly in the eyes. They look at you straight. The practical and logical dominate the imaginative qualities—impulse is a slave to will. The lack of wrinkles between the eyebrows and the smooth forehead, indicate a man who can concentrate his mind without the great effort which contracts the facial muscles. Judge Parker dresses well, and always in dark colors, usually grays. His ordinary attire is a cutaway coat of ordinary gray cloth and gray trousers. He wears a standing collar and a simple black cravat held by a small pearl. Few men are more decorous or careful in their dress. In spite of his passion for work and his many pressing duties, he usually dresses three times a day—for riding, for business and for dinner; his clothes fit him, which can not be said of most men in public life.

The term of Judge William H. Holt, of the United States District Court of Porto Rico, expires June 1. It is said that the President will probably reappoint Judge Holt if he desires to continue on the bench.

A DESERVED TRIBUTE

To One of Aberdeen's Honored Citizens,
the Late Jesse Ellis—Funeral
This Afternoon.

The funeral of the late Hon. Jesse Ellis of Aberdeen takes place at 2 o'clock this afternoon and the remains will be laid to rest in Charter Oak Cemetery with the honors of the Masonic order.

The religious services will be conducted at the family residence by Rev. Mr. Bennett.

Mr. Ellis was born at the old family homestead at Ellis Landing in Adams County, four miles above Aberdeen, on December 19th, 1823. Until 1884 he lived on his ancestral acres at which time he came to live in Aberdeen of which town he had since been Mayor four years. He was always a rock-bound Democrat and held many places of honor and profit. Among these we may mention twelve years as surveyor of Adams County and two terms in the Ohio Legislature. His first wife was a daughter of the late Gen. Baker of this county who died in 1850. Five years later he was married to Anna Maria Underwood, daughter of the late Wm. Richards of Aberdeen. She survives, with three sons and a daughter. One of his sons is now the Mayor of Aberdeen.

Mr. Ellis was a gentleman in every way. His genial manners, unswerving honesty and kindly disposition made him many friends. One noticeable trait in the course of his long and useful life was that he was very guarded in his speech in regard to the shortcomings of others and always leaned towards a verdict of not proven. He was especially beloved by all of his old neighbors to whom his presence has ever been a sweet incense and his name an abounding heritage of pleasant memories. To the hungry his table was ever a feast of good things and he never turned the needy away from his open door. During the last nine years he had been partially paralyzed and in all that time he has been lovingly nursed and cared for by one of the noblest of women who in her daily life has always fully illustrated that a good woman is God's best gift to man.

Col. Thomas M. Green was reported critically ill at his home in Danville Thursday with disease of the kidneys, and was not expected to survive the day. The news came as a shock to his friends, as he was thought to be in vigorous health.

Miss Rebecca Martin of Millersburg, who was operated on at Chicago for appendicitis, is recovering nicely.

We can't hope to repeat the bargain—it's money saved to choose from this lot.

Flowers in profusion and souvenirs, original and appropriate, were used to mark the various figures. At twelve o'clock sharp the ball was over, with each and every member enthusiastic over its success.
